

## 01 New Virgin Active Pavilion Shopping Centre

DURBAN, KWAZULU-NATAL, SOUTH AFRICA

Betts Townsend is proud to have delivered a very successful 1,200m<sup>2</sup> Virgin Active facility with three levels of parking at the Pavilion Shopping Centre. The curtain wall around the structure provides this iconic and lively gym with the panoramic view of Durbanville and Westville. This south-east extension to the Pavilion shopping centre developed by Pareto won the Master Builders Association National Safety Award for its construction site. The great commitment of the involved project team ensured valuable coordination on site and adherence to programme to enable the gym to open on time as scheduled. This is one of the smoothest and most successful project management services that the Betts Townsend team has delivered thus far for Pareto.
